Experienced Senior Software Engineer with 9+ years of expertise in designing scalable systems and solving complex algorithmic challenges. Strong in applying data structures to optimize performance and build resilient, user-centered solutions with modern technologies.

Skills

- **Languages:** Java, JavaScript, TypeScript, Python
- **Frameworks:** Spring Boot, JPA/Hibernate, React
- **Cloud & DevOps:** Docker, Kubernetes, Microservices, Azure, Prometheus, Grafana
- **Databases:** MySQL, MongoDB
- **Testing & Automation:** JUnit, Mockito, Testcontainers, Cucumber, Cypress, Wiremock
- **Version Control & CI/CD:** Git, Bitbucket, Bamboo, Github Actions
- **Others:** HTML, CSS, tailwindcss, bootstrap, Kafka, ActiveMQ

Professional Experience

Senior Software Engineer

ASML

Luxoft (Jan 2023-Present)

Eindhoven, NL

- Optimized document ingestion system by replacing RestTemplate with Spring WebClient, reducing ByteBuffer size to 1 KB, and implementing JVM tuning, achieving a ~20% decrease in resource usage and improved throughput.
- Led the implementation of an API-based deployment service using Spring Boot, Kubernetes Operator SDK, and REST APIs to enable on-demand application deployment, eliminating all manual setup efforts.
- Developed a UI feature using React and Redux that enabled labeling of external hardware equipment and displayed live deployment status updates, allowing users to track whether the equipment was deployed or in progress, significantly improving user experience.
- Developed features for a data export tool using Spring Boot, Spring Shell, bash scripts for scp to efficiently transfer data from one cluster to another without causing downtime, ensuring zero-downtime data migration and minimizing operational disruption.
- Contributed to a test automation framework using Spring Boot, Cucumber, Selenium, and Rest Assured, enabling quick production validation via simulators.

Senior Software Engineer

CIMB Bank

Luxoft (Feb 2021-Jan 2023)

Bengaluru, IN

- Designed RESTful APIs for seamless integration across teams and front-end applications. Implemented HATEOAS to enhance API discoverability with resource URLs for dynamic navigation.
- Integrated third-party APIs to validate customer eligibility for account opening, enhancing risk assessment.
- Designed and implemented a stepper-based interface using Angular to simplify the customer onboarding process, enabling agents to seamlessly fill or review information.
- As team lead, directed low-level design efforts and produced key documentation for feature development, supporting team clarity and project success.

Senior Software Engineer

Du Telecom

Phire Global (April 2019-Feb 2021)

Dubai, UAE

- Designed and developed an Outlook plugin using Angular and Microsoft SDK, allowing the legal team to directly attach documents to contracts in the Contract Management System, eliminating manual uploads entirely.
- Implemented document versioning using Java, SQL databases, and REST APIs to track and retrieve all uploaded contract documents, ensuring full traceability and access for audits.
- Worked with customers and other stakeholders to refine requirements, and built POCs, ensuring alignment with business needs.

Senior Member of Technical Staff

Internal Audits Team

MetricStream (April 2018-April 2019)

Bengaluru, IN

- Revamped legacy code by implementing Spring Framework and JPA, Optimizing data operations and ensuring long term maintainability.
- Built a configurable admin reporting tool, allowing users to generate reports using SQL queries.

Member of Technical Staff

Zaplet Team

MetricStream (April 2015-April 2018)

Bengaluru, IN

- Contributed to the development of on-demand demo features, which improved product visibility and customer interest.

Projects

- [foozapp](#) - An e-commerce store built with Angular and Firebase, showcasing dynamic UI, responsive design, and real-time data handling.
- [initgrep](#)— A tech blog created using Jekyll and Bootstrap, demonstrating skills in HTML, CSS, and responsive web design.

Education

- **Master of Computer Applications** – VTU, Bengaluru, 2010-2013
- **Bachelor of Computer Applications** – University of Kashmir, 2006-2009
